Fellowship Development (Saturday)

Theme: Inclusion and Creating Safe Spaces

- Greater Orlando area initiated one of the day's most significant discussions by presenting questions about managing disruptive behavior in business meetings. Their inquiry focused specifically on non-violent situations where members become argumentative or disruptive during area service, seeking guidance on policies and appropriate responses.
- A Work Group will propose alternatives to the "Service Symposium" and gather ideas from each area for potential replacements, including possibly combining it with the GSR Assembly.
- Voting on the budget- Should it be Consensus Base or Changed to Robert's Rules- which would have to be agreed on, line by line.
- Supporting Deaf and Hard of Hearing Members
- Daytona area's request for guidance in supporting a new deaf member generated extensive sharing that showcased the fellowship's commitment to genuine inclusion. Jordan from Daytona expressed gratitude for community support while acknowledging their area's inexperience with accessibility accommodations.
- Coquina Coast shared their successful approach using hybrid meetings where deaf members participate via Zoom with closed captioning while others meet in person. They described maintaining this arrangement even post-COVID specifically to continue serving their deaf member, demonstrating institutional commitment to inclusion rather than temporary accommodation.

HELPLINE:

Helpline Committee Area Report – August

Submitted by: Stephen McIntyre, Helpline Chair

Meeting Summary

The Helpline Sub-Committee met on August 4th at 7:00 PM at The Meeting Place. Three members were present, resulting in an informal ad hoc meeting. A key discussion point was the ongoing issue of committee members not attending meetings. Current guidelines state that any member who misses two consecutive meetings is no longer eligible to answer helpline calls. We discussed two potential solutions:

1. Transitioning to fully online business meetings.
2. Maintaining the attendance policy but offering a hybrid meeting format for greater accessibility.

Hybrid Meeting Implementation

At our previous meeting, it was agreed that we would move toward a hybrid format. I have confirmed with multiple Area Service Committee chairs that the Zoom platform is available during our scheduled meeting time on the First Monday of the month at 7pm. Effective

September 1st, the Helpline Committee will meet in a hybrid format, with members able to attend in person at The Meeting Place or join via Zoom. I will confirm with Area leadership the process for accessing the Zoom platform for our meetings by gaining sign information and rules for use.

Financial Update

Following last month's report, it was brought to my attention that we were still being billed by our former phone service provider, LineOne. I contacted them, secured a refund, and confirmed that no further charges will be incurred. Currently, the Helpline has no expenses impacting the Tampa Funcoast Area budget.

Communication

The committee has transitioned from text messaging to a WhatsApp group for internal communications, which has proven to be more effective than a text group.

Texting Functionality for the Helpline Number

Last month, I reported issues with the texting feature of the helpline number. After contacting Ersa, the Regional IT Officer, he assisted Anthony in restoring functionality. However, the system still needs refinement. Currently, it provides meeting information from across the state instead of limiting results to a specific ZIP code or city.

The key points to address are:

- Informing the public, via our website and printed materials, that text responses require a ZIP code or city name only to respond.
- Clarifying that the system only returns the next five meetings within the provided location. While Region suggested that PR assist, I believe the start of the solution is updating our website with this information. Somehow, to make this text service useful, people need to know how to use it.

I have continued to press for additional training, as the resources provided so far (instructional videos) have not addressed the technical issues. Region has now agreed to schedule a session with experienced trainers to assist both myself and Anthony. They seemed reluctant to help and kept pushing the responsibility onto Anthony, who, at this point, has the same questions I have. I had to persist, so now there is a training session scheduled for next week.

Call Routing Challenges

We are working to configure the system to properly route calls based on the caller's preference (male or female volunteer) and to provide a Spanish-speaking option. This change will require scheduling two volunteers per time slot instead of one. The main issue needed to be resolved with training is how to put multiple numbers into the system and system knowing which one to use.

Guidelines Review

Updating the Helpline Subcommittee guidelines remains on hold, but we intend to address this soon.

In Service,

Stephen McIntyre

Helpline Chair
